

OneSeal 79-SM

ISC

Security Seals

OneSeal 79-SM is a High Security Seal according to ISO 17712:2013 and is C-TPAT compliant. The seal is made of solid metal with a very high cutting strength for protection against harsh tools. The pin is marked with an "H" for High Security Seal for easy identification. The metal cylinder is covered by non-flammable PC shock proof plastic. Seals are approved by Customs authorities world wide including US Customs, HM Customs, German and Taiwan Customs.
