

OneSeal 79-T06

ISC

Security Seals

OneSeal 79-T06 Anti-Spin is a High Security seal according to ISO 17712:2013 and is C-TPAT compliant, super flexible high security container seal in metal. The bolt of the seal has a 5 mm soft wire embedded - making it flexible and resistible to any harsh tool. The pin is coated with plastic and marked with an "H" for High Security Seal for easy identification. The patented Anti-Spin feature ensures that the pin with its 4 "fins" prevents friction attacks. The metal cylinder is covered by non-flammable PC shock proof plastic.

APPLICATIONS

- Trucks
- Shipping containers
- Cargo containers
- Trailer vehicle doors
- Rail freight

FEATURES

- ISO 17712:2013 and C-TPAT compliant high security seal
